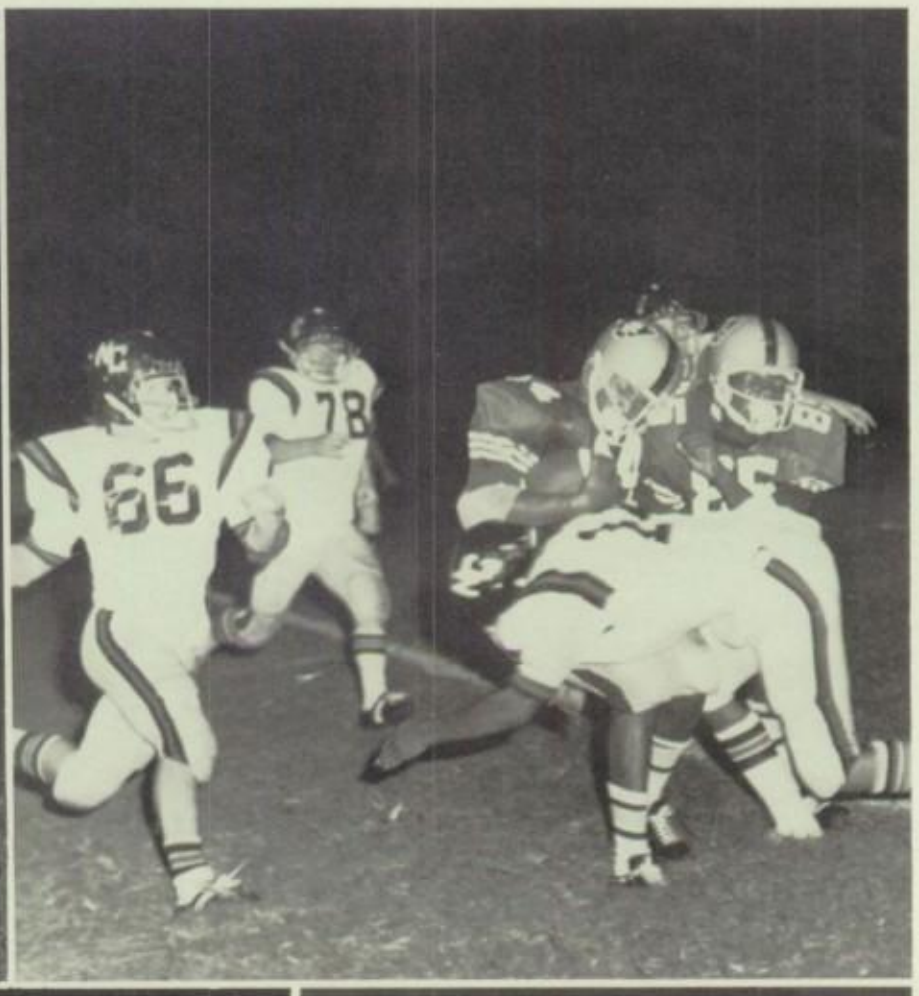
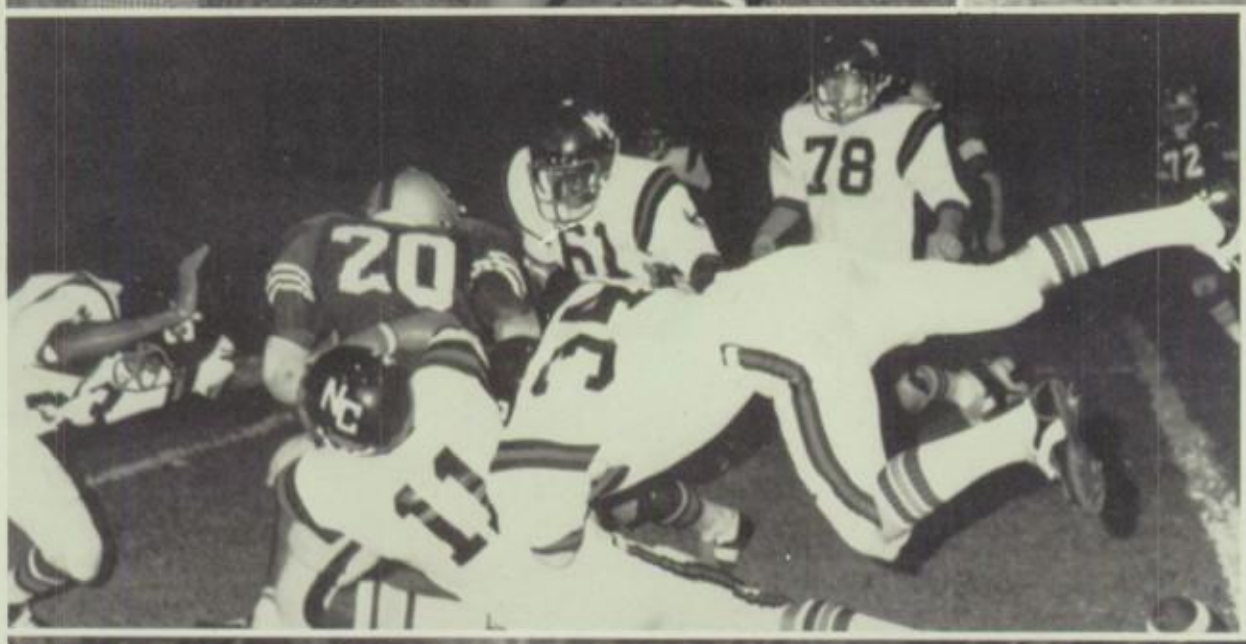
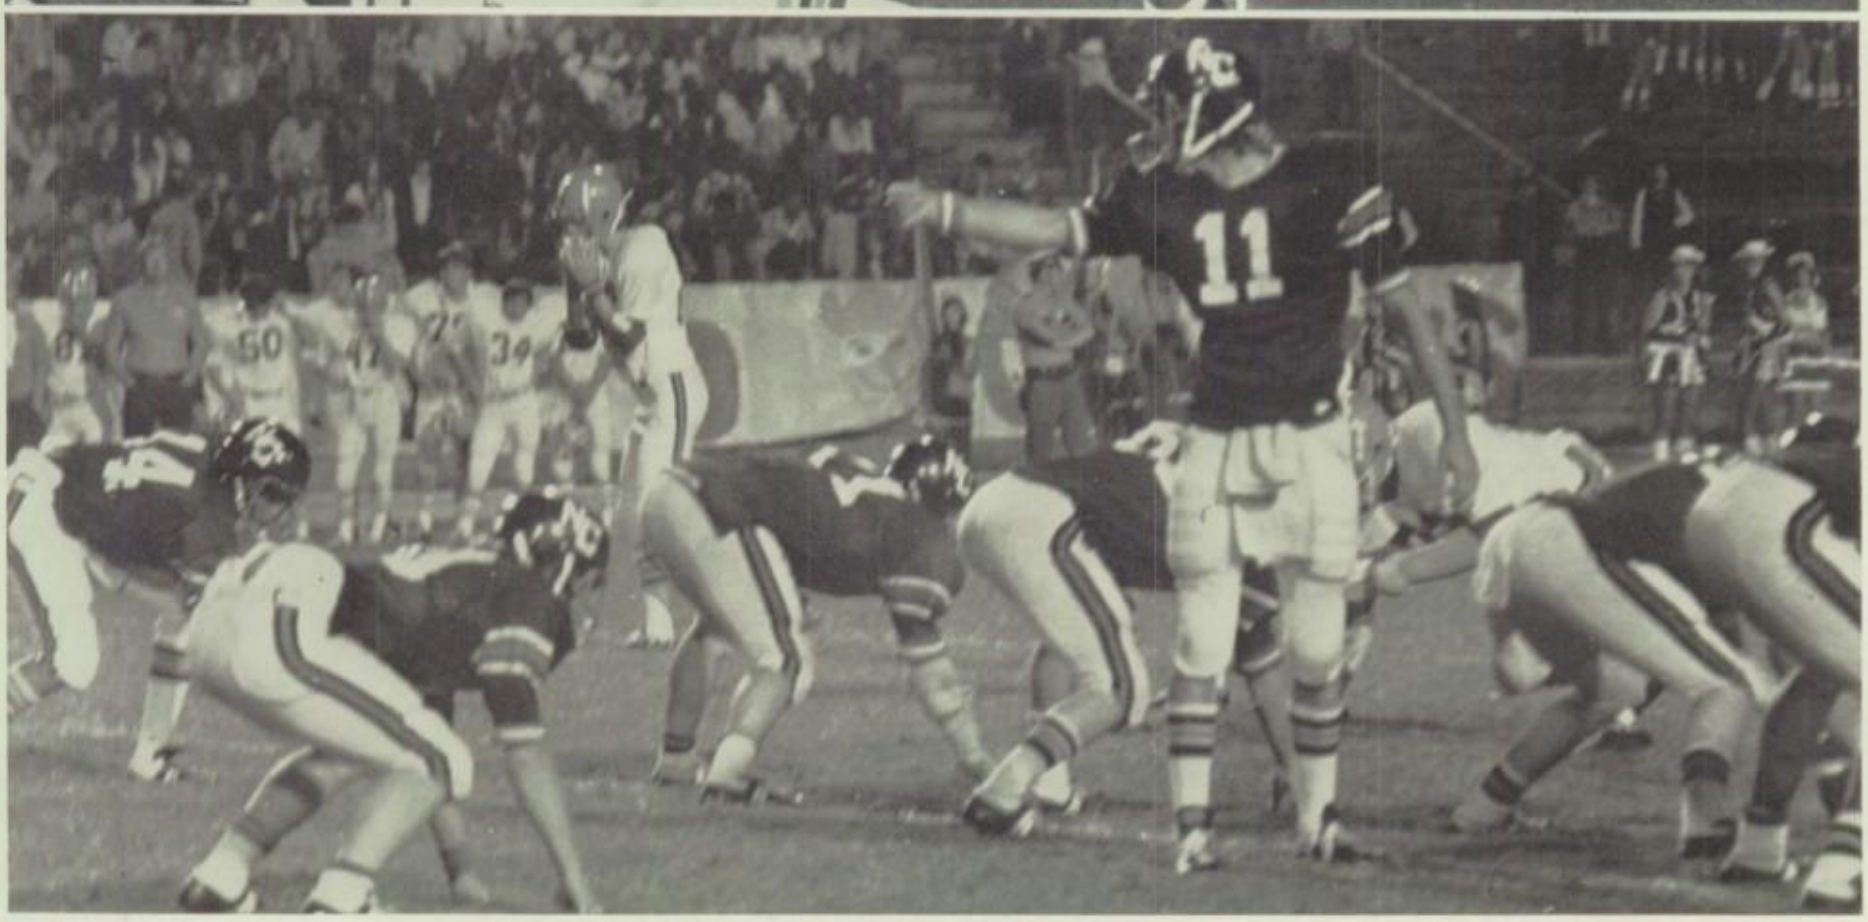
'76 Rebel — District Leaders

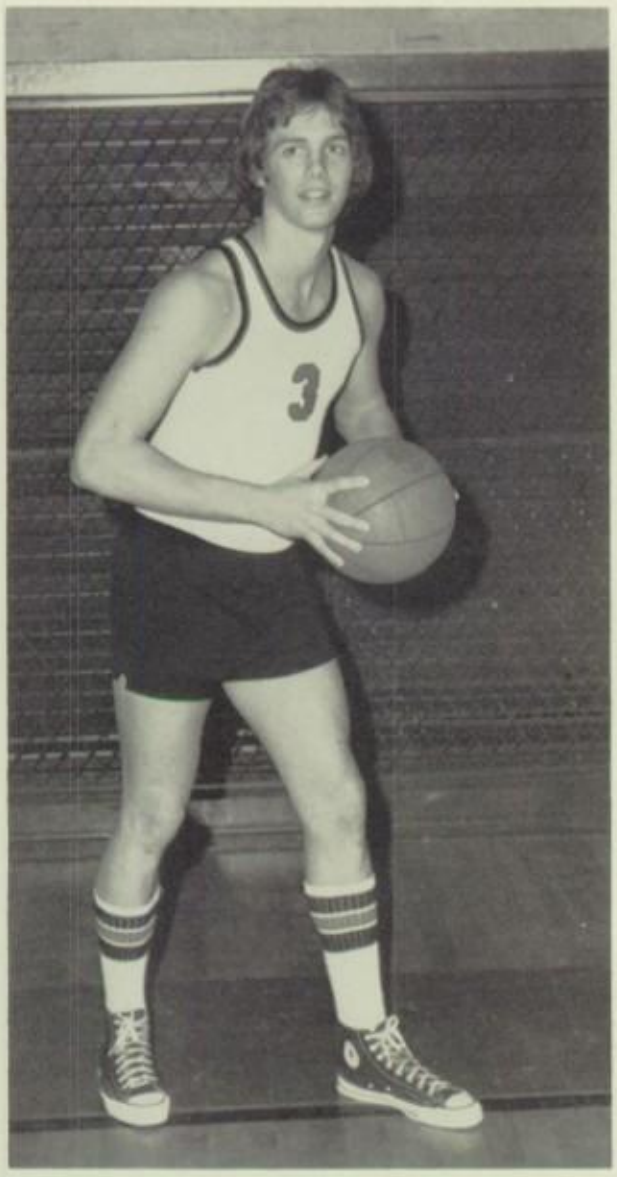
Rebs in Action







75-76 VARSITY ROUNDBALLERS



The 75-76 Rebel Basketball has been fairly successful. They owe this success to Coach "Flash" Gordon, who after three seasons has finally come up with what he hopes to be a championship ball squad. He feels that his players have confidence in his program, and they will do what it takes to get the job done. Coach Gordon has also said that this 75-76 group is the best he's had while coaching at North Caddo.

save on famous name brands

Lots of people have jobs we taught them.

Think of today's Army as the world's largest technical school and you'll realize why we have so many successful alumni.

You see, there are over 300 occupations in today's Army that aren't too unlike corresponding civilian jobs. So when you learn a job with us you have a skill when you get out.

You get to pick that skill, too, before you enlist. And if you're qualified, you'll get the training to perform it like a professional.

Which means intensive, in-depth, on-the-job training along with classroom instruction.

While you learn you get paid. Starting at $344.10 a month before deductions. And with 30 days paid vacation a year, free meals, free housing, free clothing, and free medical and dental care, your take-home pay goes a long way.

If you'd like to know more about job training opportunities in today's Army call or see your local Army Representative. You'll pick up skills that will benefit us now, and yourself later.

Today's Army
wants to join you.

Birthday

Happy

America

I LOVE AMERICA PAGEANT
THEME GIRLS: LIBERTY LADIES
1975-1976

INTRODUCTION:
In 1492, Columbus sailed the ocean blue. The earth is round was his belief
When they sighted land there was much relief.
He died unaware that this new land was destined to become so great and grand.
One by one the explorers came but to settle this land was not their aim.
For 100 years, they sailed the seas — The Spanish, French, and Portugese.
Searching for riches and treasures each day Yet none of them came to stay.
Until the British settlers with their plea from the Church of England to be free
Were granted permission of the King to settle the New World Colonies.
The colonial period thus began on the eastern shore of this new land.

VIRGINIA — 1607 — Toy Williams
In 1607 to Jamestown they came with Captain John Smith the land to claim
They faced many hardships as they arrived but determination and faith helped them survive
Exporting tobacco was their bread of life and when Pocahontas became John Rolfe's wife
There was a period of peace for the colonists and tribes until the friendly chief Powhatan died.
The intervening years of struggle and strife Made them aware of the sacredness of life
And as time went on, the colony grew. Many great leaders came from there, too.
Patrick Henry and Jefferson set out to lead until from British rule Virginia was freed.
And then in 1788 Virginia became our 10th historic state.

MASSACHUSETTS — 1620 — Freddie O'Neal
When Irish eyes are smiling, all the world seems bright and gay.
Especially in Boston on St. Patrick's Day.
As the people of this state remember with esteem their Irish ancestry and the wearing of the green.
It all began when the Pilgrims came to the American shore on the beat of fame.
The Mayflower anchored in 1620 at Plymouth Rock in the land of plenty.
Before coming ashore, they drew up a plan of self-government that was favorable to man.
A colony of firsts it quickly became. Massachusetts was this colony's name.
It was here we had the first Thanksgiving feast and another first, but not the least
Was the shot that was fired in Lexington and the American Revolution was begun.

NEW HAMPSHIRE — 1623 — Tammy Jones
The third colony that came to be in 1623
Was that of New Hampshire, a beautiful place and the home of the first American in space.
Alan B. Shepard — an astronaut true was the first to explore above the blue.
I am sure they are proud — this Granite State, For helping to make our country great
For it was the act of their ratification that made our Constitution the law of our nation.

NEW YORK — 1624 — Kerry Murry
Subways, Times Square and glittering lights. The excitement of Broadway on opening night.
Macy's parade on Thanksgiving Day, St. Patrick's Cathedral — a place to pray.
Rockefeller Center and Central Park, the Lincoln Center of the Performing Arts.
On Liberty Island we also see our gift from France — the Statue of Liberty.
A symbol of freedom, she stands proud and tall. As we visit her we are quick to recall
The humble Dutch beginnings of the Empire state and the city of New York which Made her great.

CONNECTICUT — 1633 — Carol Tyson
A settlement was made in 1633 that began our fifth colony.
With Thomas Hooker, the people came to Windsor, Conn., the wilderness to tame
The will of the people would rule said they, and the Fundamental Orders would lead the way.
It is sometimes called the first written constitution and in Litchfield was formed our first law institution.
Our colonial judge is here to recall that our judicial system provides justice for all.
This is also the state that provides assurance for you all know Conn. is the home of insurance.
In Connecticut there also appeared on the scene the Nautilus, our first atomic submarine.
So even tho it's small in physical size, it is big in history in our eyes.

MARYLAND — 1634 — Tanya Gates
There was a man from Washington, D.C. His name, as you know, was Francis Scott Key. He boarded a warship at Fort McHenry for the release of American prisoners to plea. Then the British vessel set out to fight and attacked the fort for a day and a night. Little defense the fort had they knew, but suddenly that morn there came into view. The American flag still flying high with the stars and stripes gracing the sky. The sight so inspired the lawyer Key that our national anthem came to be. Now our flag flies continuously on the shore of Ft. McHenry in Baltimore.

RHODE ISLAND — 1636 — Glenda Yancy
Although it's the smallest of our states in size I hope it will not be a surprise that Rhode Island was big in other ways. Shall we begin with colonial days? Roger Williams, the founder, at Providence led his settlers with confidence. All was fine — but soon that ceased as England attempted the tax increase. Rhode Islanders were the first to take offense and openly rebelled as an act of defense. The specific act occurred at sea — the burning of the British ship Liberty. Like other colonies, they were willing to fight for their freedoms and inalienable rights. After the war with freedom gained in 1790, statehood was attained. Three years later it came to be the home of the textile industry. As Samuel Slater — a dream to fill, In Pawtucket opened the Old Slater Mill. Making cloth is not their only construction for they also rank high in-jewelry production.

DELAWARE — 1638 — Jane Parker
Tulips, windmills and wooden shoes. These are the things that serve as clues. About the heritage of Delaware. Did you know that the Dutch first settled there? In 1631 the Dutch claimed the land but soon after the Indians had it in hand. Then the Swedish settlers arrived and stayed until 1655. Now this Dutch girl is proud to say that the colony is a state today. But it is not just ANY state today for it was the very first in the USA! From this great state came Emily Bissell who led the fight against tuberculosis. By introducing us to the Christmas seal which makes the spirit of Christmas real. All of this happened in colony eight and today it is one of the most prosperous states.

PENNSYLVANIA — 1643 — Brenda Johnson
This colony was settled in 1643 and it was destined from the start to be. A colony of worth from that year to this as we will learn from our Quaker miss. The land was granted to William Penn who was a champion of religious freedom for men. He believed strongly in self-government and contributed much to its development. As the years went by and the colony grew it became a state of importance, too. The most important national event of all took place here in Independence Hall — The historic signing of the Declaration when we told England we would be a free nation. After convincing England of that intention our forefathers met here at the Constitutional Convention. It is also the site of our first oil well and of course it is the home of the Liberty Bell. The next noteworthy event, as you might have guessed, was Abraham Lincoln's famous Gettysburg Address. We hope from our Quakers review that we have helped to recall for you the many parts of our history to which Pennsylvania is the key.

NEW JERSEY — 1660 — Rhonda Hudson
This engineer, as we shall see, represents our eleventh colony. A little place that we know to be the Garden State of New Jersey. There were many very important events that happened during its development. But one of the most important it seems was the first locomotive run by steam. This game us much faster transportation which greatly improved our communication. Now how would you have liked to travel the plain with this engineer driving your train? But not only did they improve transportation, they also began a trend in recreation. When the umpire called, Batter Up, Let's play! Professional baseball was here to stay. Travel and play since then have become for many Americans the rule of thumb. And it is New Jersey that we can thank for this by a tip of the hat from our engineer miss.

SOUTH CAROLINA — 1670 — Karen Rachal

The early settlers of this colony not only fought Indians but also piracy. Many of them were quite afraid as Blackbeard and his pirates did harshly raid along the South Carolina coasts and of their raids they did loudly boast. Yet the colonists successfully defended attack as they bravely took arms and fought right back. And as we can learn from our pirate here, the colonists began to conquer their fears. Their determination soon led to victory and from pirate raids they were eventually freed. As time went on in history, this 12th colony soon came to be the eighth state in the USA, An important part in our nation to play. For it was here that the Civil War began and rice was first successfully raised by man. The loudest protest of a state in our nation was South Carolina's Ordinance of Nullification. The purpose of which was to show they opposed the high federal tariffs that had been imposed. The art of compromise was eventually used and state and federal government again were fused.

GEORGIA — 1733 — Amanda Burney

It was in 1733 that the colony of Georgia came to be. James Oglethorpe led the settlers there as we will learn from our Southern Belle fair. For 21 years they led peaceful lives and then with England began the strife. They fought for their freedom as others had done. When the victory was finally won, early statehood was their aim and the 4th state in the Union they became. Progress was made as the years went by and soon a man named Eli invented a machine that had never been — the innovative cotton gin. This was a most important thing and because of it COTTON was king. Our southern belle recalls with elation the happy life on the Southern plantation. But raising cotton is not all they do for Georgia is known as the Peach state, too. The first girl scout troop that we did know was organized here by Juliette Low. Medical history swept the nation when Dr. Long performed the first painless operation. Georgia was the last of our colonies to form and following it the USA was born.

MISS LIBERTY — Terri Swearengin

The colonies were settled and they wanted to be loyal to England — the mother country. But as time passed by there was discontent on the part of many with parliament. It seemed that the cause of our frustration was mainly taxation without representation. Gradually the colonists began to see that they would have to give in or fight to be free. So after much rebellion and "dumping of tea" we set out to gain our liberty. The First Continental Congress in Philadelphia met to discuss the course of action to set. And we heard Patrick Henry as he took a deep breath saying, "Give me liberty or give me death."

It was now 1774 — the tension was growing more and more — until finally in 1775 the Continental Army was organized. With Gen. Geo. Washington in command, this army fought to free our land.

AMERICAN REVOLUTION — Laura McKinney

On the 18th of April, 1775, hardly a man is now alive who remembers that famous day and year of the midnight ride of Paul Revere. When the minutemen were all alerted and the battle for colonial freedom was started. It all began at Lexington and Concord from the shot that was heard around the world. The American Revolution had begun and it was a war that must be won. If you are a student of history you know how the U.S. came to be an independent nation from that moment on — taking care of ourselves and standing alone. The date of the signing and our nation's birth was the 4th of July — a day of worth. For it was on this day that we made declaration of our intent to become a free nation. And the stars and stripes began to wave o'er the land of the free and the home of the brave.

UNITED STATES OF AMERICA — Karen Whitecotton

Liberty bells ring — fireworks fly and in 1976 on the 4th of July
There will be a birthday of a country great. What a grand old year to celebrate!
200 years have now come and gone since we won independence from the English throne.
Even our forefathers could not have guessed that this small nation would be so blessed.
But blessed we have been down thru the years — sharing our victories, conquering our fears.
From 13 small states to 50 today we proudly stand as the USA.
Under old Glory — the red, white, and blue. Have you thought much lately of its meaning to you?
It represents the unity in our 50 states and the blood that was shed to make us great.
It represents justice and government by man and honor and faith as United We Stand.

HAPPY BIRTHDAY, AMERICA!

IN LOVING MEMORY

Four years. For some it has been too long. Others have felt it was days of good times, but everyone agrees it has been an experience. The dominant idea that sticks in our memories is the spirit shared by everyone. Friday night football games, our Northwood rival, and pep rallies headed by the cheerleaders. Our senior year. The time many begin losing interest, direction, and ideals. Now we begin to think of independence, new faces, and challenges which will shape our tomorrows. We have wondered at numerous social and historical events. Confusion, instability, and corruption. But more fondly, we will remember May, 1976. Now let us work to achieve dreams, contemplate opportunities, and begin from this day.

To My best friend Susan
Well we've been through alot
But we allways worked it out
7 years is a long long time for anyone
I hope our future years will be
as good & close as this year. But I
hope next year has a lot more ups
than downs. I also hope we don't
let any squirrel bait get in our way
if you get my hint. See you around. I
hoping for the rest of our lifes. Then
we can have Rug Rats running art
our ears. And please name one after
me. Frances Kay Dang

Autographs

P.S. Put your shirt in mothballs
& we'll wear them when we
get 93.

It's been nice
Knowing you. I
hope you have
a good summer
& don't do any-
thing I wouldn't
do.
The Best in the
Future.
Donna Herring

P.S. Funny names &
funny faces always
appear in public
places.

Susan,

↑ you'll be wearing Supp-Hose when you're 93, you nerd.

Actually, I can't think of what to write so I guess I'll just have to write all the usual mushy lies. (just kidding - everything I write is true.) I know I'm not always as considerate of you as I should be but you always put up with my insanity and I will always love you dearly for it. Stay as nice, and nice-looking as you are and keep all your common sense and people will always love. You have all the attributes I wish I had. I hope we're friends forever.

Love always,

Srs '78

Geneva

Susan,
It has been such a fun year - I hope you have enjoyed it as much as I have! You are a real sweet girl & CRAZY too! Be good and get ready for the boom to be lowered down on you next year in Pep Squad when I get to start tossing you around! JUST FOOLIN'
Love you,
Senior Shawn
"77" (FOXY)

Hi!
Its good to know you a friend! It has been good knowing you and that you came to North Caddo. Hope you have as many good times up here as I have.
Love,
Anita

Susan,
We got back together on this year and its been the best year. As time goes the crazy things always make me laugh. I'll never forget the crazy and the fun times we've had. Remember me everybody when I'm gone. Remember me as a cute, flaming, crazy, maybe cute couple after all.
Love ya
Julia Darlene

Susan,
It's been nice knowing you this year; See you next year
Killer

Susan,
I am really glad I got a chance to meet and know you and that you helped this year. You're a happy one, girl. Have a happy Senior year, "77"
Love ya always
Scooter

SUSAN
you be good
And take CARE
Love ya always
Scooter

Susan,
You're one of the Dirtiest girls around! Good luck to you in all you do. Keep Sweet - Love ya
Dana

Susan,
I've enjoyed having you in my classes this year (I know I've probably bugged you to death) but you're such a sweet person I can't help but kid ya! Good luck always (maybe you'll have better luck next year and not have me in any classes!) I'll miss ya
Love Ya
Pam '78

Susan,
It was nice having you in my classes this year. I know I can be a pain in the butt sometimes but I enjoyed it. Best of luck always.
Christine Jr. 78
Robinson

Susan,

Robinson

Susan,
It was nice having you in my classes this year. I know I can be a pain in the butt sometimes but I enjoyed it. Best of luck always.
Christine Jr. 78
Robinson

Susan,

Well, the year's almost over with. It's been fun in Biology with you. I wish we still had Mr. Richard. You're a real nice person. Stay that way and good luck in your next 2 years at NCH.

Friends always,
Anita Cox Sr. '77'

Susan,
You are really a sweet person. Keep your good personality and you will go far. Stay Sweet.

Love ya,
Kathy
-N-
Randy

Susan,
It is a pleasure to be able to say I know you and that you have been in this class. Students like you are the ones that makes teaching a pleasant task.
Best of luck
Mr. Yancy

Susan,
Nice doing business with you. Hope you have a good summer.
Sincerely,
Randy Bell '78

Susan,
Nice doing business with you. Hope you have a good summer.
Sincerely,
Randy Bell '78

Susan,
It has been a great one heck of a year especially all on the field.

P.S. See ya in the goalzzpapers!

Love,
David

Susan,
You have been a great friend. It has been a great year in typing. Stay that way and you'll go far.

Love always,
Debbie Bounds

Susan
It been fun this year and all see you next year.

Ricky Johnson

Susan,
I have enjoyed typing with you this year. Keep up the good work and I'll see you next year.

Love,
Shelley Bowman

Susan,
your one person
that I can't forget.
I'll hope we'll have
more classes than one next
year. I hope and wish you
the best of luck. Stay sweet and
nice and I might see ya next year.
Love always,
Sam Steward

Sr. 78
is GREAT!

Susan Joan '66
Art is Her Thing
